Modern Languages Department Vision

Modern Languages at Braeview Academy is more than learning a language to visit a foreign country. Here at Braeview Academy we focus on developing our literacy and our skills for learning, life and work and being able to do it in a different language is just added bonus! All learners continue studying S1-S3 as they have been studying it at their primary school. They will have the opportunity to experience an additional Modern Language in line with the Scottish Government's 1+2 language approach. Learners can choose to take an elective in their second Modern Language for S3.

Modern Languages are compulsory to the end of S3. There are many opportunities for recognised progression at National 3 to Advanced Higher level in the senior phase. We deliver Modern Languages for Life and Work in French for S3.
